I build software and I support the people who use it. I am the founder and lead developer of AsistoYA, a multi-tenant SaaS in production — subscription billing, REST integrations, a progressive web app and mobile apps on Google Play and the App Store — awarded 3rd place nationally at the MESCyT 2025 competition with RD$400,000 in seed capital. Alongside it I have spent two years in client-facing operational roles: customer and technical support across CRM and ERP portals, and hotel front desk work on property management systems (Cloudbeds, Hotello), including nightly audits reconciling the day's transactions. I work across the stack, and I am used to being the person who translates a technical problem for whoever is living it.

EXPERIENCE

Founder & Lead Developer — AsistoYA · asistoya.com — Aug 2025 – Present

- Built and run a multi-tenant SaaS for school attendance: separate dashboards for administrators, teachers and parents, each scoped to its own school's data.
- Integrated subscription billing, a progressive web app with push notifications, and mobile apps published on Google Play and the App Store.
- Onboard every new school personally: import and validate their student, staff and course records, then train their team on the reports.
- Act as first-line support for the schools running it — reproduce the issue, find the root cause, ship the fix.
- **3rd place nationally — MESCyT National Entrepreneurship Competition 2025, selected from 40 ideas across 21 universities; RD$400,000 in seed capital.**

React · TypeScript · Node.js · REST APIs · Computer Vision · Tailwind CSS

Web Administrator & Reservations Agent — Ultra Infinity Hotel — Mar 2026 – Present

- Daily operator of Cloudbeds (PMS): reservations, rate plans, availability and property configuration.
- Keep rates and inventory consistent between the booking engine and OTA channels, catching mismatches before they reach the guest.
- Administer the hotel website on WordPress/Elementor: content updates, booking engine configuration and page optimization.

Front-End Developer, Internship — El Pensum — Nov 2025 – Feb 2026

- Built interactive interfaces in Angular and TypeScript consuming JSON APIs, for a platform to explore Dominican universities and academic programs.
- Contributed to the digital payments module.

Front Desk Agent & Night Auditor — Velero Beach Resort — Apr 2025 – Feb 2026

- Ran the nightly audit on Hotello (PMS): reconciled the day's transactions, revenue and payment methods across front desk and restaurant, resolved discrepancies and closed the system.
- Managed reservations, check-in/check-out, billing and cash handling for national and international guests; worked OTA channels daily (Booking.com, Expedia).

Administrative & Technical Support Assistant — EyP Multiservices (Claro) — Nov 2024 – Mar 2025

- Customer and technical support for clients and sales agents, working daily in CRM and ERP portals.
- Document management, invoicing, process organization and incident resolution; remote assistance via AnyDesk.

Accounting Assistant — Lic. Wilson Manuel Sosa, CPA — Jul 2023 – May 2024

- Data entry and filing of tax records to the DGII (forms 606 and 607), with the precision that financial records demand.
- Organized and validated invoices and financial documentation; client support in person and by phone.

PROJECTS

Night Audit System — Web application for hotels — Jul 2025 – Aug 2025

- Digitized the night-audit process I was running by hand: check-ins and check-outs, automated billing, sales breakdowns by category, shift and payment method, and a countdown to the system close.

EDUCATION

B.Sc. Software Engineering — Universidad Abierta para Adultos (UAPA) — Nov 2024 – Nov 2028 (expected)

Technical Baccalaureate in Administrative & Tax Management — Politécnico Prof. Juan Emilio Bosch Gaviño — 2021 – 2024

CERTIFICATIONS

Full Stack Developer Certification Associate — Certiplus — Oct 2026
Valid until Oct 2029

Diploma Program in Databases — ITLA, Instituto Tecnológico de las Américas — Aug 2026
300 hours

TypeScript: From First Steps to Professional — Master.dev — Feb 2026
8 hours · Credential ID baba173e58-jfuxcgueUy

Front-End Web Development with Angular — ITLA, Instituto Tecnológico de las Américas — Dec 2025
40 hours

Full Stack Web Development — Intermediate Level — Cymetria Group / INDOTEL / IDB — Jan 2026
80 hours

Google Play Store Listing Certificate — Google Play Academy — Sep 2025 – Sep 2028
Credential ID 160885006

Python Essentials 1 — Cisco Networking Academy — Mar 2025

Collaborative Technology & Project Management Tools — Universidad Iberoamericana (UNIBE) — Mar 2025
8 hours

Legacy Responsive Web Design V8 — freeCodeCamp — Oct 2024
~300 hours · Credential fccc3509f1c-94fd-4e6a-9a7b-dfb836aa8fb3

Scientific Computing with Python — freeCodeCamp — Oct 2024
~300 hours · Credential fccc3509f1c-94fd-4e6a-9a7b-dfb836aa8fb3

English Language Diploma — Natural Languages Institute (NLI) — Dec 2019
Registration 519448

SKILLS

Development	JavaScript, TypeScript, React, Angular, Python, Node.js, HTML/CSS, Tailwind CSS
APIs & tooling	REST APIs, JSON, Postman, Git & GitHub, Vite, progressive web apps, Docker basics
Support & operations	Technical troubleshooting, client onboarding and training, CRM and ERP portals, remote assistance (AnyDesk), incident resolution
Hospitality systems	Cloudbeds, Hotello (PMS), booking engines, OTA channels (Booking.com, Expedia), night audit
Data & databases	SQL, relational database design, Microsoft Excel, Google Sheets, data cleaning and validation, reconciliation, reporting, invoicing
Web	WordPress, Elementor, SEO

LANGUAGES

Spanish	Native
English	Professional working proficiency — Duolingo English Test: 115 (Mar 2026) · NLI English Diploma

Recommendation letters (UAPA Rectorate; Lic. Wilson Manuel Sosa, CPA) and references available on request.
